Sanlorenzo SL90A

The Sanlorenzo SL90A “MICHISAN” is a 27.6-meter luxury yacht designed to deliver an exclusive cruising experience across the Balearic Islands. Built in 2026 by Sanlorenzo, it combines contemporary elegance, high performance, and exceptional comfort. Thanks to its Zero Speed stabilizers, it ensures smooth navigation both at anchor and while cruising.

Its modern and sophisticated interior accommodates up to 8 guests in 4 en-suite cabins, including one master cabin and three VIP cabins. The spacious saloon, flooded with natural light through large panoramic windows, creates a cozy and relaxing atmosphere. Outside, the yacht features an impressive flybridge, lounge areas, and a hydraulic garage that transforms into a “Beach Club,” ideal for watersports or sunset drinks.
